

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THIS edition of the Ready Reckoner is one of the most complete ever offered to the public. It shows readily, at one view, the value of any number of feet, yards, gallons, pounds, &c., of any article, from 1 to 225, at rates ranging from one quarter of a cent up to 5 dollars, in so plain and easy a manner, that a person may, by looking at the head of the page for the given price, and at the column on the side for the number wanted, tell with the utmost accuracy the amount of value required.

In order to render this little work more valuable to Farmers, Manufacturers, Tradesmen, and Mechanics, there is added a Table, showing at one view a rate of wages, from one quarter of a day to twenty-six; from one dollar per week, to nine dollars and fifty cents; together with variety of forms of Notes, Bills, Receipts, Petitions, &c., which no person in business ought to be without.

08-2-39 n.m.

PREFACE.

The following examples are given to illustrate still more clearly the proper method of consulting the Tables:

Suppose you want to know what 33 bushels of corn, or a like number of any thing, would come to, at 67 cents per bushel:—by referring to page 92 (marked at the bottom thereof), and passing your eye over the numbers in the left-hand column until you come to 33, you will find opposite, and immediately in connection, \$22.11, the sum required.

Again: What would 27 yards cost, at three five-penny bits (or three sixteenths of a dollar)? By looking at the left-hand column, and the top, for the proper numbers, I find the answer to be 5 dollars, 6 $\frac{1}{4}$ cents.
